

March 14, 2011

Mr. Marc Weinreich  
Greenfield Environmental Trust Group  
1928 Eagle Crest Drive  
Draper, UT 84020

**Ref: Pre-Effective Date Costs – Savannah Trust**

Dear Mr. Weinreich,

Tetra Tech is pleased to submit its invoice for our costs incurred for the Savannah Trust. Our costs for efforts beginning on August 23, 2010 and ending on February 14, 2011 are included. The total invoice amount is \$2,883.91.

Please remit payment to:  
Tetra Tech EM Inc.  
DEPT 1642  
Denver, CO 80291-1642

Please contact me with any questions at 571-294-3662. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Wanta'.

Michael Wanta, P.E.  
Operations Manager

## **Tetra Tech Summary of Pre-Effective Date Activities for Savannah Trust**

### **Activities from August 23, 2010 through February 14, 2011**

#### **1) Site Visit and Regulatory Agency Coordination**

Tetra Tech attended a site walk during the week of August 23, 2010 to review the site conditions, and also had a discussion with the site regulator to obtain additional information about the site. A follow-on call with DOJ was attended to share information regarding the site walk.

Electronic files and notes were prepared for the activities noted above.

#### **2) Environmental Information**

Tetra Tech downloaded and electronically saved files made available by Tronox via the two online document repositories. The documents typically included: consent decrees, AOCs, VCP Plans, memoranda and other remediation agreements and documents, environmental investigations and audits, design studies, corrective measures studies, risk assessments, monitoring and other work plans, and key regulatory correspondence. In addition, over GIS and environmental database files were compiled and reviewed for completeness.

Based on the downloaded data and public sources, Tetra Tech then completed a 41-question comprehensive site outline for the Savannah site.
